PHILIP MITCHELL

New York

Known for: Inviting rooms rich in nostalgia and personality, with a collected mix of furniture and art from different eras and design styles.

INTO Ceilings decorated with bold wallpaper, deep paint colours, a highly lacquered sheen or intricate mouldings. The ceiling should be the unexpected interest of a room.

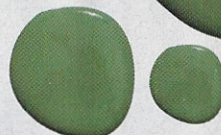

OVER Design that's too planned, too obvious or too matchy.

Talking Shop

For design fans, it's a storybook union on par with Ellen and Portia, or Beyoncé and Jay-Z: starting in September, Hudson's Bay and Anthropologie are consciously coupling to offer Anthro's boho-chic tabletop, bedding, kitchen and home accessories at Hudson's Bay stores across Canada. Four shop-in-shop boutiques, each around 1,000 square feet, will open in Toronto, Vancouver and Montreal. Sixteen additional locations, as well as Hudson's Bay's online store, will also carry the collection, which will include an exclusive teapot, quilt, bakeware and more. *At Hudson's Bay,*
